Tentative Syllabus
CS 308: Software Engineering
Fall 2024

Lecture Hours:	Mondays	09:40 – 10:30 (FMAN G071)
	Thursdays	08:40 – 10:30 (FMAN G071)
Lab Hours :	Fridays	14:40 – 19:30 (FMAN G071)

Instructor Cemal Yılmaz
E-mail: cyilmaz@sabanciuniv.edu
Office: FENS G019
Office Hours: Mondays 14:40 – 16:30 (FENS G019 - by appointment)

TAs Berke Oğuz (berke.oguz@sabanciuniv.edu)
Kağan Gülsüm (kagan.gulsum@sabanciuniv.edu)
Kashmala Omar Siddiqui (kashmala.siddiqui@sabanciuniv.edu)
Mehrdad Heshmatnajafabad (mehrdad.heshmat@sabanciuniv.edu)
Mekan Myradov (mekan.myradov@sabanciuniv.edu)
Saltuk Buğra Çiftçi (saltuk.ciftci@sabanciuniv.edu)

DESCRIPTION

This course is an introductory level course to the fundamentals of software engineering. One focus of this course is to provide software engineering knowledge and skills that students can put into immediate practical use. Topics covered include requirements engineering, architecting and designing software systems, quality assurance, managing software process, and getting familiar with the state-of-the-art software development tools.

TENTATIVE PROGRAM

week 1 Introduction to Software and Software Engineering
week 2 Managing the Software Process
week 3 Scrum
week 4 Requirements Engineering
week 5 Modeling with Classes I
week 6 Modelling with Classes II
week 7 Modeling Interactions and Behavior
week 8 Software Design Patterns I
week 9 Software Design Patterns II
week 10 Software Design Patterns III
week 11 Software Architecture
week 12 Software Verification and Validation I
week 13 Software Verification and Validation II
week 14 Software Verification and Validation III

GRADING POLICY

	contribution (%)
Short Quizzes	5
Midterm	20
Final	25
Project	50

No makeups for the short quizzes! The average of the best *n*-2 quiz grades will be used as the final quiz grade, where *n* is the total number of quizzes.

Be aware that, since the term project is an integral part of the course, getting good grades in the exams and quizzes is not sufficient to pass the course! To be assessed as successful, students must significantly contribute to their project group's success.

COURSE PROJECT

Each project will be carried out by using Scrum in a team.

TURN-IN and LATENESS POLICY

All the deadlines are sharp deadlines!

COLLABORATION POLICY

Project groups may discuss ideas about their projects with other groups, but they should not share any project artifacts with others (e.g., requirement documents, design documents, source code, etc.) Each group is responsible in making sure that their artifacts are well protected from others.

MAKE-UP POLICY

It's simple. Do NOT miss an exam!

If you do miss an exam, no makeup exams will be granted unless you have a documented emergency situation and notify the instructor within 48 hours after the exam date.

TEXTBOOK

There is no textbook for this course. The following, however, is a list of suggested books:

- *Object Oriented Software Engineering: Practical Software Development using UML and Java*, Timothy C. Lethbridge and Robert Laganiere, McGraw Hill, ISBN 0-07-710908-2
- *Software Engineering,* Ian Sommerville, Pearson, ISBN 0-13-394303-8
- *The Mythical Man-Month*, Frederick P. Brooks, ISBN 0-201-83585-9
- *Design Patterns*, Eric Gamma et. al., Pearson, ISBN 0-201-63361-2
- *Scrum: A Breathtakingly Brief and Agile Introduction*, C. Sims and H. L. Johnson, Dymaxicon, ISBN 978-1-937965-04-4
- *Code Complete*, Steve McConnell, Microsoft Press, ISBN 9780735619678

OTHER POLICIES

- For the instructor's office hours, send an email to the instructor, indicating a couple available time slots within in the office hours, so that the meeting is scheduled beforehand.
